WELCOME TO OTOLARYNGOLOGY ASSOCIATES, P.C.

We are a medical and surgical practice dedicated to providing expert health care to adults and children of the Washington Metropolitan Area with disorders of the ear, nose and throat and related areas of the head and neck.

OUR STAFF

An otolaryngologist is a doctor trained in the medical and surgical management of diseases and disorders of the ear, nose and throat. They are commonly referred to as ENT physicians. Our ENT physicians also treat disorders of the head and neck area and perform facial plastic and reconstructive surgery.

Our practice includes doctors selected from the foremost academic medical centers around the country. They are all board certified by the American Board of Otolaryngology. Many of our physicians have subspecialty training in areas such as pediatric otolaryngology, facial plastic and reconstructive surgery, otology-neurotology, cochlear implantation, rhinology, otolaryngic allergy and laryngology.

Our medical practice is supported by nurse practitioners trained in otolaryngology. We also have an extensive team of audiologists trained to specifically address your hearing concerns and provide hearing aid sales and service.

Our comprehensive level of understanding and expertise in the management and treatment of ENT disorders allows us to provide our patients the best possible care in the operating room and in the office.

Our affiliated company for hearing aid sales & service
**MEET OUR DOCTORS**

**Dr. Bryan McKeon** is a fellowship-trained otolaryngologist and neurotologist with particular expertise in the medical and surgical treatment of diseases of the ear and balance system. He is a graduate of Johns Hopkins School of Medicine. He completed his internship, residency, and fellowship at the Johns Hopkins Medical Institutions. He is certified by the American Board of Otolaryngology.

**Dr. Mark Bahadori** is a native of Fairfax County. He is a graduate of Hampden-Sydney College and of Eastern Virginia Medical School. He received his otolaryngology/head-and-neck surgery training at Boston Children’s Hospital and is certified by the American Board of Otolaryngology and is a Fellow of the American Academy of Otolaryngology-Head and Neck Surgery and the American Academy of Otoloryngology-Allergy.

**Dr. Robert Bahadori** is a fellowship-trained otolaryngologist, graduating from Stanford University and Washington University School of Medicine. She completed her otolaryngology training at Washington University School of Medicine at Barnes Hospital in St. Louis. Her fellowship training and research focused on voice disorders, laryngeal tumors, laryngeal and tracheal airway reconstruction, and swallowing rehabilitation. She also has extensive experience in head and neck surgery, including thyroid and parathyroid diseases. Dr. Lee is certified by the American Board of Otolaryngology.

**Dr. Allison Tobey** is a graduate of the University of Pittsburgh School of Medicine, located in Pittsburgh, Pennsylvania. Although her education included both adult and pediatric otolaryngology, her extensive clinical training at Children’s Hospital of Pittsburgh is her special interest in pediatric otolaryngology. Dr. Tobey has published research studies related to Pediatric Cleft Palate Care and Pediatric Airway Issues and Wound Care. She is a member of the American Society of Pediatric Otolaryngology, the American Academy of Otolaryngology-Head and Neck Surgery and the American College of Surgeons.

**Jerry Lin, M.D., M.B.A.** is a graduate of Harvard Medical School, trained in otolaryngology at New York Presbyterian Hospital, and completed his fellowship at Baylor College of Medicine. Dr. Lin is certified by the American Board of Otolaryngology and is a member of the American Neurology Society. He is the former Director of The Hearing Center and Cochlear Implant Program at Texas Children’s Hospital and spoke nationally regarding clinical outcomes of pediatric and adult cochlear implantation.

**Dr. Robert Murray, M.D.** is a fellowship-trained, board-certified pediatric otolaryngologist. He is a graduate of the University of Iowa. He completed his residency in otolaryngology at the Thomas Jefferson University Hospital in Philadelphia, Pennsylvania and his pediatric otolaryngology fellowship at the Boston Children’s Hospital, Harvard Medical School. His pediatric fellowship training focused on head and neck masses, ear disease and hearing loss, sinus and allergy, and sleep apnea.

**Our patients may also be seen by one of our experienced nurse practitioners, including Nancy Burgert, Katherine Bartholomay, Nancy McCarthy, and Uchichi Anyalebechi. Each holds a Bachelor and Master of Science Degree in Nursing and has years of experience in treating our patients.**

**OUR FEES**

Payment of fees for medical and surgical care is the direct responsibility of the patient. Please be prepared to take care of your account at the time of service. We participate in most major health insurance plans and will file insurance claims on your behalf. Co-payment will be collected at the time of service. Please remember that insurance claims contain matters involving you and your insurance carrier. Although we are happy to assist you in these matters, it is the patient’s responsibility to understand all aspects of their insurance policy and to plan accordingly. If we do not participate in your insurance plan, please be prepared to pay your charge at the time of service. We will provide you with an itemized receipt containing all the information necessary for you to file for reimbursement from your insurance company.

**Prescriptions.** As a rule, we will not offer treatment without an examination. We ask that you remember to collect your prescription from your physician before you leave your appointment, otherwise an additional fee may be charged for your prescription. If you need a prescription refilled, please call during office hours and follow the telephone prompts.

**Telephone Calls.** We are always available to discuss problems with our patients. If our staff is unable to answer your questions, your chart will be given to your doctor and he or she will be relied on by you. Calls from the doctors themselves are usually made after office hours. Our physicians are available during nights and weekends for emergency calls only. Please contact our office at (703) 383-8130 and follow the prompts for paging the physician on call.

**Making Appointment.** You can schedule your appointment by calling (703) 383-8130 weekdays from 9am to 5pm. If you need a referral, please be sure to obtain one for office visits as well as tests and procedures. Lack of proper referrals may necessitate additional costs to your appointment. If you had any X-rays, CT scans or MRIs performed related to your problem, please be sure to bring them with you to your appointment. It is also beneficial to bring a list of medications that you take on a regular basis. If you need to cancel or reschedule your appointment, please be sure to provide 24-hours notice to the office in order to avoid a cancellation fee.

**Ours.** Our staff treats a wide variety of ear, nose and throat problems including: pediatric ENT disorders (most commonly ear infections and adenoid and tonsil ailments); sinusitis and allergies, hearing loss; hearing restoration and hearing aid fitting, cochlear implantation, balance disorders (including vertigo, dizziness and motion sickness); snoring and sleep apnea, tinnitus, hoarseness, acid reflux, voice and swallowing disorders, head and neck tumors and plastic and reconstructive surgery of the face, head and neck.
